

Technical description

Automatic machine with volumetric dosage.

- Body in polished steel
- Steel side panels with LED lights
- Volumetric pump with balanced by-pass
- Coffee brewing with volumetric dosage (4 doses on each group, continuous brewing button)
- Self-learning doses programming
- Hot water delivery with time setting
- lever taps
- Two steam wands in stainless steel with rubber grip
- Stainless steel hot water dispenser
- Porta-filters with Magister OEM handles with cool touch grip
- White LED back-lit six key touch panels with personalized Magister graphics
- LED light indicators
- LED lights on the working area
- Electronic boiler temperature control adjustable through the touch pad
- Switching power unit stabilizing voltage fluctuations
- Electronic pre-infusion (can be disabled through the touch pad)
- Boiler level control and self-engaging heating element:
- The display shows:
 - machine name;
 - boiler temperature;
 - coffee brewing timer on each group (chrono-function);
 - alarms on maintenance;
 - operational anomalies or failures;
- Through the display buttons it is possible to set:
 - programmable on/off cycles;
 - boiler temperature;
 - pre-infusion time;
 - alarms on maintenance;
- 2 and 3 groups tall cup version as standard

Optional accessories upon request:

- EPS
- Tea mixer
- Cup warmer with thermostat
- Electric cup warmer
- "EPS" thermostatic steam wand system for heating/frothing the milk
- Color filter holder
